

ORIENTATION PLUS

To kickstart the year, all students, grades 3-12, will engage in the redesigned Homework Help Orientation PLUS. We have revamped the orientation experience in order to directly involve students in key grade-level learning objectives.

1 Launching Off!

Students will meet with a live instructor and achieve mastery on a building block math learning objective.

2 Build Your Plan

Students will schedule weekly or monthly recurring ETI lessons grounded in Mastery Connect data with a preferred instructor ensuring a strong connection to develop skills over time.

3 Monitor Your Progress

Live 1:1 instruction is built to be flexible. Epic students and teachers are encouraged to monitor progress through weekly reports or directly through their Homework Help Dashboards. Students and teachers can modify learning plans by sharing feedback and academic preferences based on changing needs throughout the school year.

Schedule Your Session

To book your first Orientation PLUS lesson, email our 24/7 support team at homeworkhelp@epiccharterschools.org or call (855) 763-2607 with your preferred days and times.

Epic Homework Help

Students can also select an On Demand session and then select "Orientation Plus" to begin.
